

## GLENBROOK NZ STEEL – AIR DISCHARGE CONSENT APPLICATION

### SUMMARY OF WEBSITE DOCUMENTS

NZ Steel lodged a resource consent application to replace their existing air discharge permits at Glenbrook. The application was received by Auckland Council on 26 April 2021.

Following an assessment of the application, Auckland Council experts requested further information from the applicant. The further information request is included in the website documents (see 'Further Information Questions'). Further information requests are standard practice for all resource consent applications.

As a result of the further information request, the applicant provided a cover letter (see 'Further Information Response') and updated all the resource consent application documents (see 'Assessment of Environmental Effects' and all appendix documents).

The original resource consent application documents are not included in the website information to avoid confusion, and because they have been completely superseded. Should you wish to view a copy, please contact [NZSteelGlenbrook@aucklandcouncil.govt.nz](mailto:NZSteelGlenbrook@aucklandcouncil.govt.nz).

The documents available on the website are as follows:

	<b>Website documents</b>	<b>Comment</b>
