

Stakeholder Engagement

- Meeting with MoE to start conversations regarding the zoning of the development. It was decided that they would prefer dual zoning via Remuera and Ellerslie, thus providing the residents with options. They will now approach the schools and follow their processes to achieve this outcome. This is a great outcome.
- Meeting with Remuera Heritage Society, which went well, they would like to be kept informed.
- Meeting with Remuera Residents Association again this went well, and they are very interested in being kept informed as we go through the project.
