337.3	Gail Ratcliffe	gailratcliffe4@gmail.com	Replace the operative Special Character Areas Overlay in St Mary's Bay with Historic Heritage Character Areas. [Inferred] includes some or all of the properties on Harbour Street, Waitemata Street, London Street, New Street, Dunedin Street, St Francis De Sales Street, Green Street, St Marys Road, Dublin Street, Caroline Street, Melford Street, Vine Street, Dedwood Terrace, Yarborough Street, Seymour Street, Selby Street, Jervois Road, Cameron Street, Shelly Beach Road, Westwood Terrace, Hackett Street, Swift Avenue, Ring Terrace, Percival Parade, Amiria Street, Tweed Street, Emmett Street and Sarsfield Street, St Marys Bay.	Qualifying Matters A I	Historic Heritage (D17)	009H
337.4	Gail Ratcliffe	gailratcliffe4@gmail.com	Delete the walkable catchment of 400m measured from Ponsonby Road Town Centre western edge and replace it with a 200m walkable catchment measured from the Three Lamps intersection.	Centres - NPS-UD Policy 3d response	Town/Local/Neighbourhood - Methodology (distance of adjacent)	019A

337.5	Gail Ratcliffe	gailratcliffe4@gmail.com	Rezone any areas covered by Historic Heritage Area or Special Character Area overlays [inferred in St Marys Bay] as Low Density Residential zone (as depicted in the plan attached to the submission of the St Mary's Bay Association). [Inferred] includes some or all of the properties on Harbour Street, Waitemata Street, London Street, New Street, Dunedin Street, St Francis De Sales Street, Green Street, St Marys Road, Dublin Street, Caroline Street, Melford Street, Vine Street, Dedwood Terrace, Yarborough Street, Seymour Street, Selby Street, Jervois Road, Cameron Street, Shelly Beach Road, Westwood Terrace, Hackett Street, Swift Avenue, Ring Terrace, Percival Parade, Amiria Street, Tweed Street, Emmett Street and Sarsfield Street, St Marys Bay.	Urban Environment	Larger rezoning proposal	008
337.6	Gail Ratcliffe	gailratcliffe4@gmail.com	Reinstate all operative or similar zones across those parts of St Marys Bay not affected by the Historic Heritage or Special Character overlays as depicted on the plan attached to the St Marys Bay Association submission. [Inferred] includes some or all of the properties on Harbour Street, Waitemata Street, London Street, New Street, Dunedin Street, St Francis De Sales Street, Green Street, St Marys Road, Dublin Street, Caroline Street, Melford Street, Vine Street, Dedwood Terrace, Yarborough Street, Seymour Street, Selby Street, Jervois Road, Cameron Street, Shelly Beach Road, Westwood Terrace, Hackett Street, Swift Avenue, Ring Terrace, Percival Parade, Amiria Street, Tweed Street, Emmett Street and Sarsfield Street, St Marys Bay.	Urban Environment	Larger rezoning proposal	008
338.1	Scott Macarthur	scott@urbanplan.co.nz	Amend the residential zones to rationalise them. E.g. stand alone housing, duplex houses and terrace houses are of a completely different typology and layout than apartments and should not be covered over the same zone.	Residential Zones	Residential Zones (General or other)	015F
338.2	Scott Macarthur	scott@urbanplan.co.nz	Increase the scope of the plan change to include Rule E12.5 (Land disturbance- district - Notification) and amend this rule to state that district level earthworks in residential and business zones will not be subject to public or limited notification.	Plan making and Procedural	General	001H
338.3	Scott Macarthur	scott@urbanplan.co.nz	Amend the land disturbance - district E12.7.2(1) with an additional assessment criterion (g) relating to whether excessive earthworks, which enable development exceeding the number of storeys provided for in the zone, are avoided.	Plan making and Procedural	General	001H
338.4	Scott Macarthur	scott@urbanplan.co.nz	Retain deletion of the alternative height in relation to boundary standard in the Mixed Housing Urban zone.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.5	Scott Macarthur	scott@urbanplan.co.nz	Amend H5.6.11(3) (Landscape area) to include 'access to'. Refer to full submission for details.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.6	Scott Macarthur	scott@urbanplan.co.nz	Amend to include a definition of 'Developed site' which has the same meaning as the 'net site area' definition. Required as the new standard inserted into the plan by the MDRS relating to the landscaped area (H5.6.11.) has no associated definition of what a 'developed site' is.	Plan making and Procedural	Definitions	001F
338.7	Scott Macarthur	scott@urbanplan.co.nz	Amend the landscaped area standard (H5.6.11(6)) for four or more dwellings to require an area of 4x4m for each ground floor unit constructed, one specimen tree and to be physically separate from the required outdoor living area.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.8	Scott Macarthur	scott@urbanplan.co.nz	Amend the 'Landscaped Area' definition to specify that the landscaped area provided in side yard areas between buildings on a site is excluded from the required landscaped areas.	Plan making and Procedural	Definitions	001F
338.9	Scott Macarthur	scott@urbanplan.co.nz	Approve proposed outlook space standards (H5.6.12) being applied to four or more dwellings to ensure that acceptable levels of on-site amenity are provided for multi-unit development.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.10	Scott Macarthur	scott@urbanplan.co.nz	Delete the outlook space standard H5.6.12(2)(a)(ii).	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.11	Scott Macarthur	scott@urbanplan.co.nz	Approve outlook space standard H5.6.12 9(d).	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D

338.12	Scott Macarthur	scott@urbanplan.co.nz	Approve the proposed standards in H5.6.14 (Outdoor Living Space) being applied to four or more dwellings.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.13	Scott Macarthur	scott@urbanplan.co.nz	Remedy drafting errors by amending the standards H5.6.14(1)(a) relating to outdoor living space. Amend subclause (1) of the standard - there should not be a reference to 'ground level' or balconies, roof terraces or similar. These are covered in later sub clauses. Also amend as current standard also causes confusion if full 20m ² is required or a lesser standard for ground-level units, which is not the intention. Refer to full submission for details.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.14	Scott Macarthur	scott@urbanplan.co.nz	Add an additional subclause to standard H5.6.14 (5) (outdoor living space) stating that no private outdoor living space may be provided in the front yard, or otherwise between a street facing building and the road. This is to avoid inappropriate use of the front yard (i.e.: clothes lines, storage shed, decking areas).	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.15	Scott Macarthur	scott@urbanplan.co.nz	Amend the new subclause (4) in standard H5.6.14 (outdoor living space) so reference to sunlight access under (4)(e) is changed to summer to align with other parts of the AUP and to recognise that most people will be spending time outside during those times, than winter.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.16	Scott Macarthur	scott@urbanplan.co.nz	Delete standard H5.6.19 (Deep Soil Areas) and replace with the changes to the Landscaped Area standard sought in this submission (requiring a landscaped area measuring 4m x 4m for each ground floor residential unit, one specimen tree and physically separate from required private outdoor living areas).	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.17	Scott Macarthur	scott@urbanplan.co.nz	Retain the new standard relating to Safety and Privacy Buffer – H5.6.20, given the opportunity for better safety and amenity outcomes on multi-unit development sites and because the standard will allow for amenity planting to improve the quality of spaces used by pedestrians when accessing their homes.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.18	Scott Macarthur	scott@urbanplan.co.nz	Amend Residential Waste Management standard – H5.6.21 Sub-clause (c). It reads as an assessment criterion and should be deleted and moved to that section of the AUP.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.19	Scott Macarthur	scott@urbanplan.co.nz	Amend Residential Waste Management standard – H5.6.21 Sub-clause (c). It reads as an assessment criterion and should be deleted and moved to that section of the AUP.	Mixed Housing Urban Zone provisions	H5 Assessment MHU Zone	015D
338.20	Scott Macarthur	scott@urbanplan.co.nz	Delete subclauses within Residential Waste Management standard – H5.6.21 relating to a waste management and minimisation plan as is unclear what the point would be, and how non-compliance would be treated.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.21	Scott Macarthur	scott@urbanplan.co.nz	Add a new standard relating to Building Separation in H5.6 requiring no more than four terrace dwellings formed as one building along a side boundary. Where additional terrace buildings proposed along a side boundary, a minimum separation of 4m between the buildings, with the intervening area to landscaped and kept free of structures.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.22	Scott Macarthur	scott@urbanplan.co.nz	Retain the strengthened criteria within H5.8.2(2) relating to construction of four or more dwellings, as a significant issue with the intensification allowed under the NPS is the lack of quality developments.	Mixed Housing Urban Zone provisions	H5 Assessment MHU Zone	015D
338.23	Scott Macarthur	scott@urbanplan.co.nz	Delete the circular reference to the zone standards under H5.8.2(2) clause (a). Standards already apply to four or more dwelling under the plan change and have their own criteria where a standard is breached. Criterion therefore adds no value to the assessment.	Mixed Housing Urban Zone provisions	H5 Assessment MHU Zone	015D
338.24	Scott Macarthur	scott@urbanplan.co.nz	Amend/delete standard H5.8.2(2) clause (ab)(vi) [providing adequate breaks in long continuous buildings to minimise the appearance of length] as this is better addressed through a Building Separation standard. Reference to “adequate” breaks without any definition about how that might be applied will be an ineffective assessment criterion and there will be wide variation in how it is administered.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D

338.25	Scott Macarthur	scott@urbanplan.co.nz	Delete H5.8.2(2) clause (ab)(vii) as is superfluous with standards already requiring this [locating deep soil areas and/or communal outdoor spaces around and between buildings to provide space and soften the built form].	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.26	Scott Macarthur	scott@urbanplan.co.nz	Redraft H5.8.2.(2) clause (ab)(viii) [designing balconies as an integral part of the building] as it is unclear what an 'integral part of the building' means.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.27	Scott Macarthur	scott@urbanplan.co.nz	Redraft H5.8.2.(2) clause (ac) as will be hard to administer. Consider what the definition of 'durable' is. Focus on visual quality aspects including materials that add colour, texture, and a sense of permanence.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.28	Scott Macarthur	scott@urbanplan.co.nz	Amend H5.8.2.(2) clause (ae) to include additional criteria relating to: (1) gable roof forms orientated towards road, not side boundaries; (2) buildings fronting street located at the same height as road reserve (or 1m above road reserve, not excavated down below); (3) carparking between buildings and road avoided and; (4) vehicle access alongside boundaries rather than centrally through development fronting road. (See photo showing example of issue).	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.29	Scott Macarthur	scott@urbanplan.co.nz	Amend H5.8.2(2)(i) as unclear why the assessment criteria relating to transport improvements are different for four or more dwellings and integrated development. With respect to the more detailed criteria under (l) the requirement under (iv) to have front berms is not appropriate as in many urban environments berms may not currently exist, or there may not be room to achieve this outcome.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.30	Scott Macarthur	scott@urbanplan.co.nz	Amend H5.8.2(10) - Building Coverage Assessment Criteria to ensure appropriate assessment of building infringements can occur. Refer to full submission for details.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.31	Scott Macarthur	scott@urbanplan.co.nz	Amend H5.8.2(17) - Minimum Dwelling Size as the three criteria are located in the wrong place. Relocate the criteria under 17(d)(a)(i)-(iii) to H5.8.2(2) and include reference to the Auckland Design Manual guidance.	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D
338.32	Scott Macarthur	scott@urbanplan.co.nz	Amend the title and description of the THAB Zone to 'Apartment Building Zone'. Also amend the zone description, objectives and policies and a standard to achieve apartment building development. Manage terrace housing through the Mixed Housing Urban Zone.	Terrace Housing and Apartment Buildings Zone provisions	H6 Obs & Pols THAB Zone	015E
338.33	Scott Macarthur	scott@urbanplan.co.nz	Amend the title and description of the THAB Zone to 'Apartment Building Zone'. Also amend the zone description, objectives and policies and a standard to achieve apartment building development. Manage terrace housing through the Mixed Housing Urban Zone.	Mixed Housing Urban Zone provisions	H5 Obs & Pols MHU Zone	015D
338.34	Scott Macarthur	scott@urbanplan.co.nz	Amend the title and description of the THAB Zone to 'Apartment Building Zone'. Also amend the zone description, objectives and policies and a standard to achieve apartment building development. Manage terrace housing through the Mixed Housing Urban Zone.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.35	Scott Macarthur	scott@urbanplan.co.nz	Amend standards for Building Separation, Height in Relation to Boundary and Yards as little point controlling building height, which per the notified standards would be limited to 8m in height beyond 21.5m from the road reserve. Need to address the sheer length of building bulk that could be orientated to look over neighbouring sites, rather than the street.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.36	Scott Macarthur	scott@urbanplan.co.nz	Delete suburban standards being applied to the Apartment Zone. The Height in Relation to Boundary controls are inappropriate. Focus on provisions of appropriate yards surrounding buildings so apartment buildings are set centrally within sites with opportunities for access and landscaping along the side and rear boundaries.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E

338.37	Scott Macarthur	scott@urbanplan.co.nz	Add further standards to ensure a separation distance between buildings as viewed along the side boundaries and to replace ineffective Height in Relation to Boundary standards. Refer to full submission for details.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.38	Scott Macarthur	scott@urbanplan.co.nz	Amend the yard standard in Table H6.6.9.2 [1?] from 1m to 4m for side and rear yards.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.39	Scott Macarthur	scott@urbanplan.co.nz	Amend the Height in Relation to Boundary standard, if retained, to 19m + 60 degrees on all boundaries.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.40	Scott Macarthur	scott@urbanplan.co.nz	Amend the Landscape Area standard - H6.6.12 to require an area of 4x4 for each ground floor unit; one specimen tree; and physically separate from required private outdoor living areas. Refer to full submission for details.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.41	Scott Macarthur	scott@urbanplan.co.nz	Delete H6.6.13(2)(iii) - Outlook Space [Where the principal living room outlook is on the ground floor and is defined by a boundary fence, outlook depth may be reduced to 5m].	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.42	Scott Macarthur	scott@urbanplan.co.nz	Add subclause for Outdoor Living Area -H6.6.15(1) that it must not be located within the front yard or between any building and the street.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.43	Scott Macarthur	scott@urbanplan.co.nz	Delete Deep Soil Area standard -H6.6.20. Replace with an improved Landscape standard. Refer to full submission for details.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.44	Scott Macarthur	scott@urbanplan.co.nz	Amend Deep Soil Area standard - H6.6.20 to provide additional requirements for more than 20 residential units in the form of a communal space.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.45	Scott Macarthur	scott@urbanplan.co.nz	Amend Residential Waste Management standard – H6.6.22. It reads as an assessment criterion and should be deleted and moved.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.46	Scott Macarthur	scott@urbanplan.co.nz	Delete subclauses within Residential Waste Management standard – H6.6.22(6) relating to a waste management and minimisation plan as is unclear what the point would be, and how non-compliance would be treated.	Terrace Housing and Apartment Buildings Zone provisions	H6 Standards THAB Zone	015E
338.47	Scott Macarthur	scott@urbanplan.co.nz	Retain the addition of further criteria to allow assessment of proposal for four or more dwellings, given the importance of ensuring high quality design and on-site amenity is preserved as development intensity increases.	Terrace Housing and Apartment Buildings Zone provisions	H6 Assessment THAB Zone	015E
338.48	Scott Macarthur	scott@urbanplan.co.nz	Delete assessment criteria H6.8.2(2)(a) (in relation to four or more dwellings) as criterion adds no value and addressed by other criteria where an applicable zone standard has not been met.	Terrace Housing and Apartment Buildings Zone provisions	H6 Assessment THAB Zone	015E

338.49	Scott Macarthur	scott@urbanplan.co.nz	Amend assessment criteria H6.8.2(2)(aa) (in relation to four or more dwellings) to refer to 'architectural design' quality.	Terrace Housing and Apartment Buildings Zone provisions	H6 Assessment THAB Zone	015E
338.50	Scott Macarthur	scott@urbanplan.co.nz	Delete criteria H6.8.2(2)(ab)(vi) and (vi) and replace with an amended Building Separation Standard. Refer to full submission for details.	Terrace Housing and Apartment Buildings Zone provisions	H6 Assessment THAB Zone	015E
338.51	Scott Macarthur	scott@urbanplan.co.nz	Amend criteria (ae) to ensure high quality urban design outcomes, noting that excessive balconies in many cases degrade rather than improve architectural expression. Also that requiring individual entries to units in an apartment building is not sensible design, with most serviced by a common building entry. Refer to full submission for details.	Terrace Housing and Apartment Buildings Zone provisions	H6 Assessment THAB Zone	015E
338.52	Scott Macarthur	scott@urbanplan.co.nz	Amend criteria H6.8.2(2)(l) - New Criteria For Public Transport to integrate bus stop infrastructure such as seating, signage and weather protection into the building design.	Terrace Housing and Apartment Buildings Zone provisions	H6 Assessment THAB Zone	015E
338.53	Scott Macarthur	scott@urbanplan.co.nz	Amend subdivision notification rules in E38.5, as the proposed changes to notification provisions are overly complicated. Amend E38.5(1) Notification (Subdivision - Urban) to include 'and activities A13A -A13E'. Refer to full submission for details.	Subdivision	Urban Subdivision	018
338.54	Scott Macarthur	scott@urbanplan.co.nz	Delete proposed rules E38.5 Notification (Subdivision -Urban) (2A) and (2B) in relation to circumstances for notification (Subdivision - Urban).	Subdivision	Urban Subdivision	018
338.55	Scott Macarthur	scott@urbanplan.co.nz	[Specific decision not stated- inferred as review] table 38.4.2 Subdivision in residential zones (A13D) which relates to subdivision that does not comply with the landuse consent which is a grant/decline matter, not a notification matter.	Subdivision	Urban Subdivision	018
338.56	Scott Macarthur	scott@urbanplan.co.nz	Amend to fix drafting errors in the subdivision chapter that currently cause a change in activity status and unnecessary complexity to the consenting process. Address with inserting in E38.6 (General Standards for subdivision) and E38.8 General Standards for residential zones that 'standard(s) in this section do not apply to activities E38.4.2(A13A) - (A15)'.	Subdivision	Urban Subdivision	018
338.57	Scott Macarthur	scott@urbanplan.co.nz	Approve standards relating to subdivision around existing building or a land use consent, but amend to insert into Section 38.7 (Standards for subdivision for specific purposes) as relates to controlled activities. Also amend to avoid unintended consequences and ensure they can be well administered. Refer to full submission for details of proposed amended wording to E38.8.1A.1 and E38.8.1A.2.	Subdivision	Urban Subdivision	018
338.58	Scott Macarthur	scott@urbanplan.co.nz	Approve the walkable catchment distances proposed. Approve the application of the THAB zoning within those catchments. Approve the application of the Mixed Housing Urban Zone as a sensible approach to accommodating the MDRS.	Walkable Catchments	WC General - Methodology	017B
338.59	Scott Macarthur	scott@urbanplan.co.nz	No specific decision stated. Reservations about the negative impact changes will have on the quality of the city and urban design outcomes if design standards associated with changes are not robust.	Plan making and Procedural	General	001H
