981.5	Adonis Souloglou	info@assurebuild.co.nz	Amend standard H5.6.19 (in conjunction with Table H5.9(3)) in the Mixed Housing Urban zone: a. Targets outlined in Tables H5.6.19.1 and H5.9(3) to be converted to m ² of canopy. This allows flexibility of tree planting between small, medium and large (whoever see para 3 below re medium and large) to better suit the site. b. either reduce this canopy m ² value by 50% or include outdoor living spaces and the surface area of hedging and shrubs alongside trees. c. remove the need for continuous areas with minimum dimensions which can be highly restrictive. The spreading of this landscaping throughout the site is more appropriate anyway to break up building form etc. d. landscape architects to prepare their plans in order to achieve the canopy target within suitably sized planting areas/methods for health of plant to maturity sizing. The use of the third party expert will mean the intention of the rule can be achieved in a safe and suitable way whilst allowing the land owner flexibility with their designs. 981.8	Adonis Souloglou	info@assurebuild.co.nz	Amend H5.6.14 Outdoor living space definition (in the Mixed Housing Urban zone) is unclear and requirement is inconsistent with other permitted space for apartments for example or between 3 or less and 4 or more dwelling sites: a. A1 (a) minimum dimension of 3m to replace 1 (a) minimum dimension of 4m to keep consistency between sites of 3 or less or 4 or more dwellings. No logical reason for difference especially given the area requirements remains the same for both scenarios. b. Definition for area should be clarified as a <u>“combination of ground floor, balcony, patio and roof terrace space”</u> . c. Reduce outdoor living space requirement for a three storey unit to the balcony only (as this is the main living area like an apartment) but maintain minimum at 8m ² not 5m ² . d. Change wording from a “unit at ground level” to <u>“where the main living area is at ground level”</u> . <i>i. A three storey unit with living on first floor with a balcony, and with a garage/ bedroom on ground floor should not require additional ground level outdoor living when a first floor apartment only requires a balcony.</i>	Mixed Housing Urban Zone provisions	H5 Standards MHU Zone	015D

Namely one that a Council would otherwise accept should not lose non-notifiable status.	Mixed Housing Urban Zone provisions	H5 Activity Table MHU Zone	015D
981.17	Adonis Souloglou	info@assurebuild.co.nz	Amend H5.6.11(6) Landscaping percentage assessment should be the same as for 3 or less as 4X1m is too restrictive and indeed punitive.
