2169.16	KTW Systems LP	rachel@dimery.co.nz	Amend the character statements to ensure special character values present in Auckland's suburbs are appropriately recognised. In particular, the amendments to the Birkenhead Point area take a flawed approach that does not consider the cohesiveness of the existing streetscapes and built form. The amendments to the extent of the Birkenhead Point special character area will create 'islands' of special character areas. Enabling significant development to occur in between these 'islands' will erode the special character values articulated in the character statement.
