1.1 Local board overview

SHARED GOVERNANCE MODEL

The Governing Body (mayor and 20 councillors)

- focus on big picture and Auckland-wide issues
- develop Auckland-wide strategies and plans
- decision making of regulatory activities such as bylaws, licencing, inspection and animal management.

21 local boards (chairperson and local board members)

- represent local communities
- provide local leadership
- make decisions on local issues and activities
- allocate local discretionary funding such as community grants and events
- input to regional strategies and plans
- advocate to the Governing Body and council-controlled organisations (CCOs) on behalf of local communities.

Introduction

Auckland Council has a unique model of local government in New Zealand, comprising the Governing Body (made up of the mayor and 20 ward councillors) and 21 local boards. The Governing Body focuses on Auckland-wide issues while local boards are responsible for decision making on local issues, activities and services and providing input into regional strategies, policies and plans. Together, this is a shared governance model where decisions can be made both regionally and locally.

Local board decision-making comes from three sources:

1. **Legislation** – local boards are responsible for activities such as community engagement, preparing local board plans, agreeing and monitoring local board agreements and communicating local views to the Governing Body on regional strategies, policies, plans and bylaws.
2. **Allocation of decision-making for non-regulatory activities** – the Governing Body has allocated decision-making responsibility for certain non-regulatory activities to local boards. Local boards make decisions on, and have oversight of, a broad range of local activities such as local parks, libraries, events, recreational facilities and community activities. Please see Volume 2, Part 3 for the Allocation of decision-making responsibilities for non-regulatory activities.
3. **Delegation of decision-making responsibilities** – the Governing Body may delegate responsibility for some regulatory activities to local boards and Auckland Transport may delegate some decision-making responsibilities to local boards. Please see Volume 2, Part 3 for the list of delegated responsibilities to local boards.

1.2 Developing local priorities

Local board plans are strategic documents that set the direction for local boards and also inform the 10-year budget (long-term plan). Reflecting community priorities and preferences, the plans are developed every three years to guide local board activity, funding and investment decisions. They also influence local board input into regional strategies and plans and provide a basis for developing local board agreements.

Every year, a local board agreement is agreed between the Governing Body and each local board. These local board agreements set out the activities to be provided in each local board area, how those local activities are to be funded, intended levels of service, performance measures and targets, for the year. The agreements take into account local board plan priorities but also reflect Governing Body decisions such as Auckland-wide priorities, budget constraints and trade-offs across all council activities.

Each local board also agrees annual work programmes in line with their local board agreement. These are operational and capital work programmes for the local activities for which they have decision-making responsibility. The work programmes contain specific initiatives and projects in greater detail than appears in a local board agreement. Local board work programmes play a critical role in delivering on the needs of communities and are informed by local board plans.

Local board agreements for 2024/2025 have been agreed between each local board and the Governing Body and are set out in Part 2.

Diagram 1: The relationship between Auckland Council plans and agreements.

Local activities

Local boards have decision making responsibility for a range of activities, as set out in the following list.

1. Local Community Services
2. Local Planning and Development
3. Local Environmental Management
4. Local Governance.

Local board agreements outline for each activity area the key initiatives and funding for the 2024/2025 financial year.

1.3 Funding

Auckland Council has a shared governance model for making decisions on local activities. Under the Local Board Funding Policy, funding is allocated to local boards to deliver local services, through the following methods:

1. **Asset based services** – the Governing Body allocates funds to deliver local activities based on decisions about region-wide service levels. This includes allocation of funds for local asset-based services, such as building a new swimming pool or library.
2. **Locally driven initiatives** – an allocation is based on a formula applied to each local board, with the exception of Aotea / Great Barrier and Waiheke Local Boards who agree funding requirements with the Governing Body on an annual basis.
3. **Governance services** – an allocation is based on the number of elected members and associated administrative costs for each local board.

The total estimated funding allocation for all 21 local boards over the 2024-2034 financial years is shown in following table. The budgets for each local board for the 2024/2025 financial year are included within the individual local board agreements in this volume.

2.2 Aotea / Great Barrier Local Board

He kōrero mai i te Heamana

Message from the Chair

Times feel pretty tough at the moment with high living costs and the stripping back of central government support as they cut their cloth to meet their budgets. And we are still recovering from the aftermath of the pandemic and the storms.

Despite all that our Aotea community are delivering some incredible community-led projects like the establishment of an early learning childhood centre, local composting workshops, regular food markets, wetland planting in Okupu, Asian paddle crab and cockle monitoring in the north. Those are just a few of the projects on the go.

AoteaOra Trust held an event acknowledging the hard work of local groups and volunteers. We would also like to pass on our thanks for all that you do.

Recently Auckland Council consulted on the proposed Long-term Plan 2024-2034 which covered a range of topics including the setting of rates and outlined the local board's proposed priorities for financial year 2024/2025.

There was clear support for the local board to continue funding local groups to deliver locally led community services, environmental programmes, and marine protection projects.

Therefore, for financial year 2024/2025 we will continue to provide grants to local groups to deliver community services and environmental projects, and for council to deliver core operational services.

We will also continue our advocacy for the protection of our coastal waters with local Ahu Moana projects and the response to exotic Caulerpa.

Take care,

Izzy Fordham

Aotea / Great Barrier Local Board Plan 2023

The Aotea / Great Barrier Local Board Plan 2023 sets out the aspirations the local board has for the area. The outcomes in the Aotea / Great Barrier Local Board Plan are:

Ō Tātou Tāngata

Our People

We see a future where mana whenua aspirations are realised and relationships are respected; where our community is resilient and cared for; a place where our community groups are empowered, sustainable and independent; where our local businesses and social enterprises retain employment; an island that is a great place to live and visit.

Ō Tātou Wāhi

Our Places

We see a future where our wharves and airfields meet our needs; where our connectivity is fast and reliable; a place where our roads are sealed, well maintained, and shared safely; where our accessways and tracks link up to our village spaces; an island that has affordable and sustainable housing for everyone.

Tō Tātou Taiao

Our Environment

We see a future where our community deals with pests collaboratively; where our food and water supply are safe and secure; a place that protects and celebrates its night sky; where we showcase zero waste and low carbon practices; an island where our streams run clean and free, and marine waters are protected and full of life.

The local board agreement outlined in this document reflects how we plan to support these outcomes through agreed activities in the 2024/2025 financial year. In addition, each local board carries out responsibilities delegated by the Governing Body in accordance with the delegated power, and with the general priorities and preferences in the local board plan.

Working with Māori

Delivering on Auckland Council's commitment to Māori at a local level is a priority for local boards. The council is committed to meeting its responsibilities under Te Tiriti o Waitangi / the Treaty of Waitangi and its broader statutory obligations to Māori.

To meet this commitment, the Aotea / Great Barrier Local Board Plan seeks to deliver outcomes for Māori. Initiatives that deliver Māori outcomes are those which support Māori identity and culture, advance Māori well-being and support Māori to participate in local decision-making as identified in the "Kia Ora Tāmaki Makaurau" framework. Examples of this include:

- Identifying opportunities to work together to build strong relationships with Mana Whenua and share information with Māori.
- Collaborating with iwi on projects of significance such as Tū Mai Tāonga, Ahu Moana, exotic Caulerpa response, and visitor information.
- Taking opportunities to create a Māori identity in our parks and facilities through actions such as naming or renaming and sharing stories about the area's heritage through interpretative signage and the installation of pou whenua.

These advocacy initiatives were considered by the Governing Body when making decisions and some may continue to be considered by the council group throughout the duration of the Long-term Plan.
