1.1 Local board overview

SHARED GOVERNANCE MODEL

The Governing Body (mayor and 20 councillors)

- focus on big picture and Auckland-wide issues
- develop Auckland-wide strategies and plans
- decision making of regulatory activities such as bylaws, licencing, inspection and animal management.

21 local boards (chairperson and local board members)

- represent local communities
- provide local leadership
- make decisions on local issues and activities
- allocate local discretionary funding such as community grants and events
- input to regional strategies and plans
- advocate to the Governing Body and council-controlled organisations (CCOs) on behalf of local communities.

Introduction

Auckland Council has a unique model of local government in New Zealand, comprising the Governing Body (made up of the mayor and 20 ward councillors) and 21 local boards. The Governing Body focuses on Auckland-wide issues while local boards are responsible for decision making on local issues, activities and services and providing input into regional strategies, policies and plans. Together, this is a shared governance model where decisions can be made both regionally and locally.

Local board decision-making comes from three sources:

1. **Legislation** – local boards are responsible for activities such as community engagement, preparing local board plans, agreeing and monitoring local board agreements and communicating local views to the Governing Body on regional strategies, policies, plans and bylaws.
2. **Allocation of decision-making for non-regulatory activities** – the Governing Body has allocated decision-making responsibility for certain non-regulatory activities to local boards. Local boards make decisions on, and have oversight of, a broad range of local activities such as local parks, libraries, events, recreational facilities and community activities. Please see Volume 2, Part 3 for the Allocation of decision-making responsibilities for non-regulatory activities.
3. **Delegation of decision-making responsibilities** – the Governing Body may delegate responsibility for some regulatory activities to local boards and Auckland Transport may delegate some decision-making responsibilities to local boards. Please see Volume 2, Part 3 for the list of delegated responsibilities to local boards.

1.2 Developing local priorities

Local board plans are strategic documents that set the direction for local boards and also inform the 10-year budget (long-term plan). Reflecting community priorities and preferences, the plans are developed every three years to guide local board activity, funding and investment decisions. They also influence local board input into regional strategies and plans and provide a basis for developing local board agreements.

Every year, a local board agreement is agreed between the Governing Body and each local board. These local board agreements set out the activities to be provided in each local board area, how those local activities are to be funded, intended levels of service, performance measures and targets, for the year. The agreements take into account local board plan priorities but also reflect Governing Body decisions such as Auckland-wide priorities, budget constraints and trade-offs across all council activities.

Each local board also agrees annual work programmes in line with their local board agreement. These are operational and capital work programmes for the local activities for which they have decision-making responsibility. The work programmes contain specific initiatives and projects in greater detail than appears in a local board agreement. Local board work programmes play a critical role in delivering on the needs of communities and are informed by local board plans.

Local board agreements for 2024/2025 have been agreed between each local board and the Governing Body and are set out in Part 2.

Diagram 1: The relationship between Auckland Council plans and agreements.

Local activities

Local boards have decision making responsibility for a range of activities, as set out in the following list.

1. Local Community Services
2. Local Planning and Development
3. Local Environmental Management
4. Local Governance.

Local board agreements outline for each activity area the key initiatives and funding for the 2024/2025 financial year.

1.3 Funding

Auckland Council has a shared governance model for making decisions on local activities. Under the Local Board Funding Policy, funding is allocated to local boards to deliver local services, through the following methods:

- Asset based services** – the Governing Body allocates funds to deliver local activities based on decisions about region-wide service levels. This includes allocation of funds for local asset-based services, such as building a new swimming pool or library.
- Locally driven initiatives** – an allocation is based on a formula applied to each local board, with the exception of Aotea / Great Barrier and Waiheke Local Boards who agree funding requirements with the Governing Body on an annual basis.
- Governance services** – an allocation is based on the number of elected members and associated administrative costs for each local board.

The total estimated funding allocation for all 21 local boards over the 2024-2034 financial years is shown in following table. The budgets for each local board for the 2024/2025 financial year are included within the individual local board agreements in this volume.

2.11 Maungakiekie-Tāmaki Local Board

He kōrero mai i te Heamana

Message from the Chair

Thank you to all those that gave their input on our priorities for 2024/2025 financial year and advocacy to the Governing Body. All of our priorities are key to delivering the outcomes you have helped us develop in our Maungakiekie-Tāmaki Local Board Plan 2023.

Congratulations to Onehunga Business Association, who have been successful in expanding their business improvement district (BID). We will continue to support our business associations doing amazing mahi / work to make our town centres inviting and supporting local businesses, including supporting Penrose Business Association to investigate becoming an established BID.

We know that our community are strong advocates when it comes to protecting our taiao / natural environment and have experienced first-hand the impact of climate change with the 2023 severe weather events. We will continue to invest in initiatives that protect and restore our waterways, such as collaborating with mana whenua and neighbouring local boards through Tāmaki Estuary Environmental Forum and Manukau Harbour Forum. We will also encourage our rangatahi / youth and community to be leaders in climate action, through programmes like Maungakiekie Songbird and Love Your Neighbourhood.

A key challenge outlined in our local board plan is how our current provision of community services and ongoing maintenance requirements of our community facilities is not affordable in the long-term. We need to look at how to deliver these services differently to be more cost-effective, while maintaining our standards of quality for the community. To address this challenge, we have outlined seven precincts that we want to focus our efforts on progressing and will focus on developing plans and our strategic partnerships, so that we and our partners are ready to deliver when funding is available. We will also advocate to Governing Body to ensure sufficient resources are allocated to enable local boards to fully utilise our increased decision making.

We want to ensure that our community groups are equipped and empowered to be financially sustainable and be able to overcome challenges and succeed. We will support community-led initiatives through activities such as local community grants. We will also continue to prioritise capacity and capability for our community and sporting groups, supporting them to foster long-term sustainable funding models for delivery of community programmes and potential multisport developments.

Kāhore taku toa i te toa takitahi, he toa takitini

We cannot succeed without the support of those around us

Ngā mihi,

Maria Meredith

Local Planning and Development

Local planning and development include supporting local town centres and communities to thrive by developing town centre plans and development, supporting Business Improvement Districts (BIDs), and heritage plans and initiatives.

Our annual operating budget to deliver these activities is \$1.7 million.

The key initiatives we have planned for 2024/2025 include:

- supporting business associations to continue supporting local businesses and ongoing growth, development and liveliness of town centres, such as through the recently expanded Onehunga Business Improvement District (BID) and by supporting Penrose Business Association to investigate becoming an established BID
- investigating the need for planning in key growth precincts across the local board area including through the local service property portfolio review
- working with Eke Panuku to ensure Transform Onehunga and Unlock Panmure projects continue to progress for the long-term benefit of our town centres, businesses and surrounding communities.

The local planning and development activity, including the key initiatives outlined above contribute towards achieving the following outcome/s in the Maungakiekie-Tāmaki Local Board Plan:

- Our Economy: Our town centres are thriving, and our businesses are resilient. We can live, work, and play locally. We are skilled and our businesses thrive. Our quality of life is high, and we can develop to our full potential.
- Our Places: Growth in our rohe is well-planned and environmentally aware. We have connected neighbourhoods where people feel safe in our community. Our town centres, open spaces and

facilities have a range of accessible and reliable transport links to get people to places. Our transport infrastructure is fit for purpose and supports future growth.
