# 1.1 Local board overview

## SHARED GOVERNANCE MODEL

### The Governing Body (mayor and 20 councillors)

- decision making of regulatory activities such as bylaws, licencing, inspection and animal management.

### 21 local boards (chairperson and local board members)

- represent local communities
- provide local leadership
- make decisions on local issues and activities
- allocate local discretionary funding such as community grants and events
- input to regional strategies and plans
- advocate to the Governing Body and council-controlled organisations (CCOs) on behalf of local communities.

## Introduction

Auckland Council has a unique model of local government in New Zealand, comprising the Governing Body (made up of the mayor and 20 ward councillors) and 21 local boards. The Governing Body focuses on Auckland-wide issues while local boards are responsible for decision making on local issues, activities and services and providing input into regional strategies, policies and plans. Together, this is a shared governance model where decisions can be made both regionally and locally.

Local board decision-making comes from three sources:

1. **Legislation** – local boards are responsible for activities such as community engagement, preparing local board plans, agreeing and monitoring local board agreements and communicating local views to the Governing Body on regional strategies, policies, plans and bylaws.
2. **Allocation of decision-making for non-regulatory activities** – the Governing Body has allocated decision-making responsibility for certain non-regulatory activities to local boards. Local boards make decisions on, and have oversight of, a broad range of local activities such as local parks, libraries, events, recreational facilities and community activities. Please see Volume 2, Part 3 for the Allocation of decision-making responsibilities for non-regulatory activities.
3. **Delegation of decision-making responsibilities** – the Governing Body may delegate responsibility for some regulatory activities to local boards and Auckland Transport may delegate some decision-making responsibilities to local boards. Please see Volume 2, Part 3 for the list of delegated responsibilities to local boards.

## 1.2 Developing local priorities

Local board plans are strategic documents that set the direction for local boards and also inform the 10-year budget (long-term plan). Reflecting community priorities and preferences, the plans are developed every three years to guide local board activity, funding and investment decisions. They also influence local board input into regional strategies and plans and provide a basis for developing local board agreements.

Every year, a local board agreement is agreed between the Governing Body and each local board. These local board agreements set out the activities to be provided in each local board area, how those local activities are to be funded, intended levels of service, performance measures and targets, for the year. The agreements take into account local board plan priorities but also reflect Governing Body decisions such as Auckland-wide priorities, budget constraints and trade-offs across all council activities.

Each local board also agrees annual work programmes in line with their local board agreement. These are operational and capital work programmes for the local activities for which they have decision-making responsibility. The work programmes contain specific initiatives and projects in greater detail than appears in a local board agreement. Local board work programmes play a critical role in delivering on the needs of communities and are informed by local board plans.

Local board agreements for 2024/2025 have been agreed between each local board and the Governing Body and are set out in Part 2.

Diagram 1: The relationship between Auckland Council plans and agreements.

### Local activities

Local boards have decision making responsibility for a range of activities, as set out in the following list.

1. Local Community Services
2. Local Planning and Development
3. Local Environmental Management
4. Local Governance.

Local board agreements outline for each activity area the key initiatives and funding for the 2024/2025 financial year.

## 1.3 Funding

Auckland Council has a shared governance model for making decisions on local activities. Under the Local Board Funding Policy, funding is allocated to local boards to deliver local services, through the following methods:

1. **Asset based services** – the Governing Body allocates funds to deliver local activities based on decisions about region-wide service levels. This includes allocation of funds for local asset-based services, such as building a new swimming pool or library.
2. **Locally driven initiatives** – an allocation is based on a formula applied to each local board, with the exception of Aotea / Great Barrier and Waiheke Local Boards who agree funding requirements with the Governing Body on an annual basis.
3. **Governance services** – an allocation is based on the number of elected members and associated administrative costs for each local board.

The total estimated funding allocation for all 21 local boards over the 2024-2034 financial years is shown in following table. The budgets for each local board for the 2024/2025 financial year are included within the individual local board agreements in this volume.

## Te Poari ā-Rohe o Puketāpapa

### **2.15 Puketāpapa Local Board**

He kōrero mai i te Heamana

#### **Message from the Chair**

The Puketāpapa Local Board Agreement 2024/2025 is credited to those who provided their feedback into this consultation and to the continued support we receive from community groups, volunteers and organisations. We are grateful for this support.

This local board agreement sets out our budget and funding for activities in 2024/2025. The region-wide consultation and this agreement are part of the council's Long-term Plan 2024-2034. This sets out the strategic and financial pathway for the council over the next ten years.

This consultation predominantly focused on our financial challenges around adapting to economic fluctuations, the cost for growth, the rising cost of asset ownership, a limited funding system and most importantly, storm response and resilience.

There was clear support for all our proposed priorities, and we appreciate the feedback provided. The environment and the effects of climate change was highly supported and remains a top priority to our community. Last year's weather events are still a key concern, these events showed the effects of climate change becoming more frequent and the big impact they have had on the council's finances and the need to improve our storm response and resilience. Many also shared a sentiment about the importance of community and all organisations fully supported investment in opportunities that support local community leadership. This feedback endorses our investment for 2024/2025 and informs our work programme activities.

Our key advocacy to the Governing Body was for core services to be delivered, improving public transport and footpaths, funding facilities and open space to respond to housing growth. In addition to the repair of flood-damaged parks, coastal infrastructure, and the development of blue-green networks in our area. Creating a greater resilience to flooding, leading to better environmental outcomes.

Ngā mihi,

Ella Kumar

### Local Planning and Development

Local planning and development include supporting local town centres and communities to thrive by developing town centre plans and development, supporting Business Improvement Districts (BIDs), and heritage plans and initiatives.

Our annual operating budget to deliver these activities is \$0.

There are no key initiatives planned for 2024/2025. However, work is being done in this space that falls within the Local Community Services priority area such as reviews of open spaces, strategic relationship grants and internal work within the council.

There is no performance measure for this activity.

### Local Environmental Management

We support healthy ecosystems and sustainability through local board-funded initiatives such as planting, pest control, stream and water quality enhancements, healthy homes, and waste minimisation projects.

Our annual operating budget to deliver these activities is \$155,000.

The key initiatives we have planned for 2024/2025 include:

- supporting volunteer groups working on local environmental restoration such as the Wairaki Awa to enhance native flora and fauna, biodiversity and natural habitats
- delivering the EcoNeighbourhoods project, a programme where neighbours partake in sustainable, low carbon practices as a way of reducing their ecological footprint
- supporting private landowners living next to high-value parks and reserves to control invasive weeds alongside Te Auaunga / Oakley Creek
- continuing to support the operation of the Manukau Harbour Forum.

The local environmental management activity and key initiatives outlined above contribute towards achieving the following outcome in the Puketāpapa Local Board Plan:

- Our Environment
- Our People

This support includes providing strategic advice, leadership of the preparation of local board plans, support in developing local board agreements, community engagement including relationships with mana whenua and Māori communities, and democracy and administrative support.

Our annual operating budget to deliver these activities is \$949,000.
