Community Arts Coordinator / Broker

Goal:

All Aucklanders can access and participate in arts and culture.

Action:

Places Aucklanders at the centre of arts and culture planning.

Kaipātiki Local Board Plan 2023:

Belonging and wellbeing

- Opportunities to participate in the arts and sport are available and accessible to all.

Community Arts Coordinator / Broker Model - Concept

- Is part of an international movement aimed at activating sites and involving people outside of a traditional art gallery or cultural facility.
- Links back to organisations such as Christchurch's *Gap Filler*: creatives create conditions for engaging, experimental and playful encounters to connect people to place.

Community Arts Coordinator - Purpose

The fund to support an arts coordinator is to

- Enable a community arts coordinator to develop strategic relationships with the creative community.
- Support a range of community-led arts activities, such as temporary projects and activations in town centres.

Community Arts Coordinator - Benefits

- This approach addresses the gap between community-led and organisation-led activities/projects.
- By activating spaces not traditionally associated with arts, increases arts experience and participation for all.
- The greater agility of this model enables Arts Broker / Coordinator to respond to local needs and opportunities.

Arts Coordinator - Benefits continued

- Reaches into community not always served by arts.
- Empowers communities with creative projects that are relevant and aspirational.
- Creates opportunities for emerging and established practitioners.
- Creates opportunities for engagement that compliment offerings of arts and cultural facilities.
- Potential to raise additional project funding.

Arts Coordinator - In action

- A cost- effective, efficient option to deliver projects through EOI callouts.
- Fosters active engagement without dedicated space.
- Is agile and responsive.
- Identifies opportunities within communities, to be delivered by communities.
- Creates awareness: new audiences can engage, participate, observe and be surprised.
