

Concept Option A : Beach access, carparking and play

1. Improved beach access.
2. Large carparks on the reserve providing equivalent numbers of formalised car parking spaces as today.
3. Play experiences dotted through the reserve catering to a variety of ages and needs.
4. Basketball court and shade shelter relocated toward the southern end of the reserve.
5. The existing beach front toilet and changing rooms would be set back within the reserve and rebuilt north of the new surf lifesaving building.
