

Concept Option B: Beach access, activities, open space and play

1. Improved beach access
2. Formalised carpark near the surf club building and new toilet block.
3. A large grassed open space for informal games, picnics and events and overflow parking.
4. Two separate medium sized playgrounds catering to different age groups.
5. Two fitness zones for youth and adult use.
6. Basketball court and shade shelter relocated toward the southern end of the reserve.
7. The existing beach front toilet and changing rooms would be set back within the reserve and rebuilt north of the new surf lifesaving building.
