Kia ora Leighton,

As discussed, Vector does not object to the works occurring. However, we will be required to relocate a steel gas main and high voltage electricity circuits and so will need AKL Council Healthy Waters to undertake these relocations as part of the project.

Subject: Te Ararata & Harania Project Works

Kia ora Kelvin and team,

Thank you for your time this morning it was much appreciated. Attached is the presentation I had showed this morning and a few notes I took.

As discussed, as part of our consent application we need to provide evidence that Vector support the project as Vector have impacted assets. Are you able to provide an approval in principle for the projects? We are happy for it to be subject to detail design and standard approval processes for the works on vector assets.

Let me know if you have any questions.

Kind Regards,
Leighton
